INSTRUCTOR

Ms. Maria Tongga

Learnovate · Doha, Qatar

FORMAT

12 sessions · 2 hours each

Course Overview

This course prepares you to manage customer service, not only deliver it. You will learn how to understand customers, lead a service team, measure performance, communicate in every channel, handle complaints and build loyalty. Each session connects the core content in your handout to a professional management model and to the technology customer service teams use today, including CRM systems, online reviews, chatbots and AI tools.

Who this course is for

- Learners who have completed Customer Care Level 4 or similar training
- Customer-facing staff moving into supervisor or manager roles
- Adults who speak English as a second language. Support is built in.

Course Learning Outcomes

By the end of this course, you will be able to:

LO1	**Analyse** customer needs and expectations using research and data
LO2	**Evaluate** how leadership and culture affect service quality
LO3	**Evaluate** service performance using KPIs, including AI-era metrics
LO4	**Assess** communication channels, human and AI, for different customer situations
LO5	**Design and justify** improvements to complaints handling and customer loyalty

Thinking at Level 5

LEVEL 4

Explain & apply

What is good service? How do I give it?

LEVEL 5

Analyse

Why is service strong or weak here? What does the data show?

LEVEL 5

Evaluate & justify

Which option is best, and what is the evidence?

In this course, you will not only describe good service. You will judge it, measure it and recommend how to improve it, with evidence.

Course at a Glance

WK	UNIT	SESSION TOPIC	SOURCE	LEVEL 5 MODEL
1	A	Customer care in context	Intro	Service-Profit Chain

How Every Session Works

Every 2-hour session follows the same structure, so you always know what comes next.

- **0:00–0:10 · Warm-up** and 8 key terms
- **0:10–0:40 · Core content:** the concept
- **0:40–1:00 · Level 5 model:** one diagram, three steps
- **1:00–1:10 · Break**
- **1:10–1:30 · Tech layer:** how it works today
- **1:30–1:50 · Practice:** case study or role-play
- **1:50–2:00 · Capstone step** and exit ticket

Session Plan

Unit A · Understanding the Customer

Sessions 1–3

1 Customer care in context

Intro | LO1

MODEL
Service-Profit Chain; ROI of service

TECH LAYER
Omnichannel expectations: 24/7, instant, mobile

CAPSTONE TASK
Analyse how service affects profit in your chosen organisation

2 Fundamentals of customer care

Ch 1 | LO1

MODEL
Kano Model: basic vs. delight features

TECH LAYER
Digital moments of truth; journey mapping

CAPSTONE TASK
Map the customer journey and rank the weakest moments of truth

3 Knowing customer needs

Ch 2 | LO1

MODEL
SERVQUAL / Gap Model; benchmarking

TECH LAYER
QR surveys, online reviews, social listening

CAPSTONE TASK
Evaluate two feedback methods and justify one

Unit B · Leading and Measuring Service

Sessions 4–6

4 Leadership for a service culture

Ch 3 | LO2

MODEL
Situational Leadership; culture change

TECH LAYER
Leading hybrid teams; AI copilots for staff

CAPSTONE TASK
Evaluate the leadership style and its effect on service

5 Measuring performance

Ch 3 | LO3

MODEL
Balanced Scorecard

TECH LAYER
KPI dashboard: CSAT, NPS, FCR, AI resolution rate

CAPSTONE TASK
Interpret KPI data and recommend targets

6 The internal customer

Ch 5 | LO2

MODEL
Internal Service Quality; RACI

TECH LAYER
Ticketing and handover tools

CAPSTONE TASK
Analyse one inter-team gap and justify a fix

Session Plan (continued)

7 Midterm — LO1–LO3

HOUR 1
Guided review of Sessions 1–6 with a practice case

HOUR 2
Case-study exam: analyse a situation and recommend

Unit C · Communicating in Every Channel — Sessions 8–9

8 Communication barriers — Ch 4 — LO4

MODEL
Hofstede's Cultural Dimensions

TECH LAYER
Translation tools, plain language, accessibility

CAPSTONE TASK
Assess barriers for a multicultural customer base

9 Communication channels — Ch 4 — LO4

MODEL
Channel strategy: cost vs. customer preference

TECH LAYER
AI triage and human escalation design

CAPSTONE TASK
Evaluate which issues go to AI and which to humans, and justify

Unit D · Recovering and Retaining Customers — Sessions 10–11

10 Complaints and quality improvement — Ch 6 — LO5

MODEL
Service Recovery Paradox; 5 Whys; PDCA

TECH LAYER
Responding to public reviews; root-cause data

CAPSTONE TASK
Design a complaints policy and customer care charter

11 Long-term customer relationships — Ch 7 — LO5

MODEL
Customer Lifetime Value; Loyalty Ladder

TECH LAYER
CRM personalisation; customer data privacy

CAPSTONE TASK
Justify a loyalty strategy using Customer Lifetime Value

12 Capstone Presentations and Final — "Finally, finally" — All LOs

HOUR 1
Capstone presentations; putting your plan into action (Kotter's change steps)

HOUR 2
Final exam: case study covering all outcomes

For larger groups, capstone presentations may begin in Session 11.

Assessment

35%
Capstone Project
Report + presentation, Session 12

30%
Final Exam
Case study, Session 12

25%
Midterm Exam
Case study, Session 7

10%
Exit Tickets
Every session, plus participation

Capstone Project

Digital-Ready Customer Care Improvement Plan

Choose a real organisation: your workplace or one you know well. Each session, you complete one step of a plan to improve its customer care. By Session 12, you have a complete plan you can present, and use in your career.

PART A
Customer insight

PART B
Leadership and performance

PART C
Communication and channels

PART D
Recovery and loyalty

Built step by step, Sessions 1–11 | Written report, about 1,500 words | 10-minute presentation

How Your Work Is Graded

Pass
Explains the key ideas clearly and applies each model correctly to your organisation.

Merit
Everything for Pass, plus analysis supported by evidence and data.

Distinction
Everything for Merit, plus comparing options, justifying recommendations and naming the risks.

Exams use case studies, not memorisation. You read a short workplace situation, analyse it with the course models and recommend action. Weights follow Learnovate's assessment rules and are confirmed in Session 1. **Unit reviews** at the end of each unit (after Sessions 3, 6, 9 and 11) help you revise: 20 practice questions in the course app, not graded.

Learning Support

8 key terms every session
Each with a plain-English meaning and an example sentence.

Sentence frames
"I recommend ___ because the data shows ___. One risk is ___."

Speak first, then write
Practise ideas out loud in pairs before written tasks.

Session materials
A student reviewer and a workbook for every session.

What to Bring Every Session

1
Session handout

2
Charged smartphone for tech activities

3
Notebook and workbook

4
Your capstone folder

Course Policies

Attendance	Follow Learnovate's attendance policy. Each missed session also means a missed capstone step.
Punctuality	Arrive on time. Key terms are taught in the first 10 minutes.
Using AI tools	Allowed for drafting and checking your English. Your analysis and recommendations must be your own. State how you used AI in your capstone report.
Academic honesty	Name your sources. Copied work is handled under Learnovate's academic policy.
Missed exams	Inform your instructor before the session. Make-up exams follow Learnovate's policy.
